Dear Friends,

Another farming year is before us. Here at Cloverland Ag Service LLC, we are pleased to offer the following new additions:

**PRICING**- By customer request, our prices now include all shipping costs to our warehouse. It is felt that this better reflects our seed prices. Please consider the listed prices as FOB Cloverland Ag Service, LLC Warehouse. We will continue to make local seed deliveries without fee.

**MASTERSCHOICE SEED CORN**-as an introductory offer, we will offer Masters Choice Corn Seed at the September Pre-Pay Discount Rate of $12 off per bag until February 28, 2018.

**ORGANIC CRIMSON CLOVER**- it appears that we will have Organic Crimson Clover this year. Order Early!

**NATURE SAFE ORGANIC FERTILIZER**- An exciting addition to the Nature Safe line of OMRI Listed Organic Fertilizers is an OMRI Listed organic 15-1-1 soluble foliar fertilizer. OMRI Listed, slow release, pelleted, organic 13-0-0 fertilizer continues to be a popular choice for our organic corn farmers.

We hope you have a blessed and fruitful growing season,

Kevin and Sue Hennis

**CLOVERLAND AG SERVICE LLC**

**CERTIFIED ORGANIC SEED FOR SPRING 2018**

**PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.**

**Seed Distributors for:**

- Albert Lea Seed
- Blue River Organic Seed
- DKG Seed Farms, LLC
- French’s Spelt Seed
- MastersChoice
- Prairie Hybrids
- Welter Seed & Honey Company

**ORGANIC VIKING 3800 BRAND ALFALFA w/Apex™ Green Hydroloc (OMRI Listed)** A very high-yielding alfalfa with fast recovery—deep crown set, can withstand mild to moderate grazing and hoof traffic. DRI 29/30 WSI 2.3 FD 4.0  

**ORGANIC WS LEAFGUARD BRAND ALFALFA w/Apex™ Green Hydroloc (OMRI Listed)** An excellent potato leaf hopper resistant alfalfa with exceptional forage quality and good winter hardness. DRI 29/30 WSI 2.7 FD 3.5

**ORGANIC MULTILEAF ALFALFA** Excellent, leafy multi-foliate alfalfa with high relative feed value for milk and livestock production and a great choice for the haymaker looking for high tonnage and high quality hay. DRI 27/30 WSI 2.1 FD 4 One of the top alfalfas in Canadian trials. $293/50#

**ORGANIC ALLSTAR BRAND ALFALFA** Improved, leafy alfalfa with excellent yields and longevity. Allstar is fine-leafed and offers very fast recovery after cutting. DRI 27/30 WSI 2.2 FD 3.8

**ORGANIC HARDY BRAND ALFALFA w/Apex™ Green Hydroloc (OMRI Listed)** Good fit for short haying rotations on heavy soil or long rotations on drier ground. Good inexpensive plowdown. Avoid wet soil. DRI 11/30 WSI 2.2 FD 2.0

**ORGANIC NITROGEN BRAND ALFALFA** Inoculated with Nitragin Gold (High Fall Dormancy) Alfalfa bred for a maximum 1-year biomass and nitrogen production. Best used as a single-season plowdown or hay production. DRI 9

**ORGANIC BLUE RIVER SWIFT ALFALFA w/Apex™ Green Hydroloc (OMRI Listed)** High yielding variety with excellent recovery and regrowth-Capable of high quality forage. Well suited to western areas. WSI 2 FD 4

---

**DRI=** Disease Resistance Index—the higher the rating, the more resistant the alfalfa.  
**WSI=** Winter Survival Index of 1-6—the lower the rating, the more winter-hardy the alfalfa.  
**FD=** Fall Dormancy—the lower the number, the earlier the alfalfa goes into dormancy, thus protecting it from cold climate winters. The higher the number, the later the alfalfa will grow into the fall.
ORGANIC CLOVER

ORGANIC RED STAR BRAND RED CLOVER  Excellent clover bred for longevity, maximum winter hardiness, and maximum disease resistance. $198/50#

ORGANIC MEDIUM RED CLOVER  Economical, fast establishing biennial legume often used as a soil builder or component in short-term hay mixtures. Raw Seed- No Inoculant $175/50#  Inoculated w/Pre-Vail $175/50#  w/Apex Green™ Hydroloc $148/50#

ORGANIC BLUE RIVER RED-WING BLEND RED CLOVER  A VNS blend of medium red clover. Uncoated $190/50#

ORGANIC MANITOBA RED CLOVER  Inoculated with Pre-Vail™ More persistent and longer lived than VNS medium red clover. $173/50#

ORGANIC MAMMOTH RED CLOVER  Tall, single cut clover used primarily for plowdown. VNS $123/50#  Alta Swede $138/50#

ORGANIC CRIMSON CLOVER  Rapidly growing warm-season cover crop clover. $168/50#

ORGANIC WHITE-BOMBUS LADINO CLOVER  A taller, large-leaved white clover excellent for grazing. Good N fixer. $183/25#

ORGANIC RIVENDEL WHITE CLOVER w/Apex™ Green Hydroloc (OMRI Listed) Small leaved, winter hardy, white clover. $183/25#

ORGANIC ALSIKE CLOVER  Short lived, biennial clover used in pastures, hay mixes, wetland plantings and plowdown. $184/50#

ORGANIC ALSIKE w/7% YELLOW BLOSSOM SWEET CLOVER $113/50#

ORGANIC YELLOW BLOSSOM SWEET CLOVER  Good soil building variety for plowdown or as nectar source. $88/50#

ORGANIC NITROGEN-FIXING COVER CROPS (LEGUMES)

ORGANIC AC GREENFIX CHICKLING VETCH  Annual legume used to increase N and soil fertility. Ask about availability.

ORGANIC HAIRY VETCH  Great fall-planted, fast growing, green manure crop. VNS $103/50#  Purple Bounty $113/50#

ORGANIC COMMON VETCH  VNS, good cover crop & forage quality, widely adapted to varied soil types. Ask about availability.

ORGANIC YELLOW BLOSSOM SWEET CLOVER- Good soil building variety for plowdown or as nectar source. $88/50#

ORGANIC MAMMOTH RED CLOVER Tall, single cut clover used primarily for plowdown. VNS $123/50#  Alta Swede $138/50#

ORGANIC AUSTRIAN WINTER PEAS  Highly nutritious, forage/silage/ground manure, viney, plant w/nurse crop. $49/50#

ORGANIC FABA or FAVA BEANS  Tall, bushy annual legume. Thrives in cool, wet weather. Avoid drought, heat and freezing. $45/50#

ORGANIC SOIL IMPROVEMENT/BIOMASS/WEED SUPPRESSION COVER CROPS

ORGANIC BUCKWHEAT  Fast growing, warm season annual, use for green manure, weed suppression, soil builder, bee attractant. $37/50#

ORGANIC WINTER RYE  Exc. winter cover crop/soil building capacity, very winter hardy, exc. fall & spring forage. VNS $20.25/56# Aroostook ASK

ORGANIC TILLAGE RADISH  Excellent cover crop, bred for taproot production. Daikon VNS $163/50#  Deep Till $208/50#

ORGANIC ANNUAL RYEGRASS  Economical, use for cover/nurse crop, emergency pasture, hay & soil building VNS $83/50#  Gulf $91/50#

ORGANIC PURPLE TOP TURNIPS  Hardy, leafy large-rooted brassica – excellent for fall grazing. $123/50#

ORGANIC COVER CROP MIXES

Spring Planting – Excellent companion with spring-planted small grains.

ORGANIC PLOWDOWN BLEND CC9  Hardy alfalfa, Mammoth Red Clover, Yellow Blossom Sweet Clover, and/or Alsike Clover. $133/50#

ORGANIC PLOWDOWN MIX 1/3 Alta Swede Mammoth Red Clover, 1/3 Alsike Clover, 1/3 Yellow Blossom Sweet Clover. $145/50#

Broadcast into standing crops at last cultivation. Shade-tolerant. June 1 to July 5 – aim for V6 or last cultivation.

ORGANIC CULTIVATORMAX CC8  Cover crop blend of annual ryegrass, med. red clover, alsike clover, radish, Hardy alfalfa. Ask for availability.

Plant May 30-August 15th

ORGANIC SUMMERMAX CC6  Warm season cover crop for max. summer growth, weed suppression, and soil building-buckwheat, Proso millet, soybean & corn. Ask for availability.

Plant August 1 – September 15 Note: Plant August 1-15 to establish clover for following year.

ORGANIC NITROMAX C1  Cover crop blend of oats, field peas, and cover crop radish, exc. choice for fall forage or grazing. Ask for availability.

ORGANIC VALUMAX CC2  Cover crop blend of annual ryegrass, cover crop radish, & alsike clover, good biomass. Ask for availability.

ORGANIC WINTERMAX CC3  Cover crop blend of winter rye, hairy vetch, & radish, may be grazed in the spring or fall. Ask for availability.

ORGANIC FORAGE GRASSES

O- ANNUAL RYEGRASS  Economical, use for cover crops, nurse crops, emergency pasture, hay and soil building. VNS $83/50#  Gulf $91/50#

O-DANEROGO ITALIAN RYEGRASS  Tetraploid, high yield of dry matter in sowing year. High resistance to diseases. $143/50#

O-STORM INTERMEDIATE RYEGRASS Tetraploid, late heading, high yields, strong disease resistance, strong winter hardiness. $188/50#

O-PREMIUM PERENNIAL DIPLOID RYEGRASS  Interim. maturing, high forage yields, exc. persistence, good wtr. hardness, strong spring growth. $218/50#

O-TOMASO PERENNIAL DIPLOID RYEGRASS Late maturing, high forage yields, best adapted to heavy soils, very fast establishing. $173/50#

O-CALIBRA TETRAPLOID PERENNIAL RYEGRASS  Intermediate maturing, fast establishing, & high yielding, best for heavy moisture-holding soils, exc. disease resistance, early production, strong regrowth, exc. winter hardiness, high sugar content. $203/50#

O-TIVOLI TETRAPLOID PERENNIAL RYEGRASS  Late maturing, exc. spring growth, highly adaptive to wide range of climates. $218/50#

O-PURIN FESTULOLUM  Fast est., exc. 1st cut yields, best suited med.-heavy soils, best fit for new pastures, renovation, & hay. $208/50#

O-FEDERO FESTULOLUM  Fast est., persistence, very productive on med –heavy soils, good choice for both pasture/hay. $193/50#

O-LAURA MEADOW FESCUE  Endophyte-free, high yielding, fast establishing, early maturing, winter hardy, more palatable than tall fescue $238/50#

O-PRADEL MEADOW FESCUE  Endophyte-free, str. spring growth, high digestibility, wtr. hardy, v. high disease resistance, outstand. persistence. $313/50#

O-S W MINTO MEADOW FESCUE  Late heading, wide cut or graze window, good yield and persistence. $223/50#

O-NIVA ORCHARDGRASS  Med.-Late heading, exc. persistence, winter hardiness, palatability & digestibility, exc. alfalfa companion. $263/50#

O-LUXOR ORCHARDGRASS  Very late maturity for a wider harvest window, v. good forage yields, ex. winter hardiness, disease tolerance $263/50#
ORGANIC FORAGE MIXTURES

OR 4010 PEAS  Very popular tall, high producing forage pea with large leaves and high productivity.  
$28/50#

ORGANIC DAIRY PRO MIX Premium alfalfa & grass mixture formulated for dairy cattle, exc. yield potential for hay, baleage or silage, fast regrow.  
$223/50#

ORGANIC ECONOMIC PEA TRITLAGE  45% Organic 4010 Field Peas, 55% Organic Spring Triticale. High feed value.  
$30.50/50#

ORGANIC SUMMER ANNUAL FORAGES-Observe Prussic Acid Warnings!

ORGANIC PROSO MILLET Fast growing, most often raised for grain or emergency forage crop, low water needs.  
$41/50#

O-CLIMAX TIMOTHY  Economical, fine-stemmed, well-suited for hay & pasture, use w/alfalfa & red clover, late maturity, premium for horses.  
$103/50#

ORGANIC ROBUST SPRING BARLEY 6-row malting, early, tall, better straw yield, good disease resistance & straw strength.  
$19/bu.

ORGANIC COVER CROP BRAND OATS Economical, high yielding oat blend. Med. maturity & height, good for chopping, baling, cover.  
$14/bu.

ORGANIC DAIRY PRO MIX  Premium alfalfa & grass mixture formulated for dairy cattle, exc. yield potential for hay, baleage or silage, fast regrow.  
$223/50#

ORGANIC GRAZEN & CHOP MIX Diverse mixture of legumes & grasses furnish balanced ration for livestock, grasses highly palatable.  
$96.50/25#

ORGANIC O-FLEET MEADOW BROME Leafier, more palatable and less aggressive than smooth brome, exc. regrowth after cutting.  
$173/50#

ORGANIC PLANT MIXES

ORGANIC KORA TALL FESCUE Endophyte free, medium maturing, deep rooted, cold & drought tolerant, good digestibility & palatability.  
$428/50#

ORGANIC O-CLIMAX TIMOTHY Late heading, high yielding, good disease resistance, improved persistence, exc. winter hardiness, med. erect growth.  
$188/50#

ORGANIC SUMMER ANNUAL FORAGES-Observe Prussic Acid Warnings!

ORGANIC PREMIUM PEA MIX  Mixture of 50% 4010 leafy, forage peas & 50% spring triticale. Forage or silage use.  
$28/50#

ORGANIC BARLEY /DS ADMIRAL YELLOW PEAS MIX Mix of about 60% dual-purpose peas and 40% barley by weight.  
$28/50#

ORGANIC DAIRY PRO MIX  Premium alfalfa & grass mixture formulated for dairy cattle, exc. yield potential for hay, baleage or silage, fast regrow.  
$223/50#

ORGANIC GRAZEN MIX  Premium pasture mix of legumes and grasses for livestock.  
$96.50/25#

ORGANIC GRAZEN & CHOP MIX  Diverse mixture of legumes & grasses furnish balanced ration for livestock, grasses highly palatable.  
$96.50/25#
ORGANIC SPRING TRITICALE
ORGANIC VNS SPRING TRITICALE High in crude protein and relative feed value with excellent digestibility. $29/50#
ORGANIC TRICAL SURGE (Cert) Awnless forage triticale with exc. yields for silage, grazing, or hay. Late maturing. $25/50#

ORGANIC WINTER TRITICALE
ORGANIC VNS WINTER TRITICALE High yielding, superior forage hay is highly palatable. High protein value. $26/50#

ORGANIC HARD RED SPRING WHEAT- Volume discounts!
ORGANIC BOLLES HRS WHEAT Leader in grain protein & baking, vg. disease rest., med. late maturity, avg. straw length. $28/50#
ORGANIC GLENN HRS WHEAT Highest baking quality, high yielding, exc. test weight & protein, exc. scab & leaf & stem rust tolerance, exc. standing, strong straw, good on fertile soils & and areas east of Hard Red Spring Wheat area. $29/50#
ORGANIC LANG MN HRS WHEAT Med. maturity, good combination of yield, quality, and disease resistance. High protein & tw. $28/50#
ORGANIC SHELLEY HRS WHEAT Best yielding feed-grade wheat. Later maturing, shorter, good disease resistance. $28/50#

ORGANIC HARD RED WINTER WHEAT
ORGANIC AC EMERSON HRW WHEAT Medium maturity, milling quality. Call for availability.
ORGANIC EXPEDITION HRW WHEAT Bearded, white chaffed, awned, early maturing, short height, very high protein. $22.75/60# bu.
ORGANIC TAM 114 HRW WHEAT Bearded, semi-dwarf, premium milling and baking quality, exc. drought tolerance. $26/60# bu.
ORGANIC WESLEY HRW WHEAT Bearded, early maturing, short variety, exc. straw strength, tolerant to stripe rust. $22.50/60# bu.

ORGANIC SOFT RED WINTER WHEAT
ORGANIC LIMAGRAIN L34 BRAND SRW WHEAT Mid-season with phenomenal yield potential, great standability. $19.50/50#
ORGANIC KASKASKIA SRW WHEAT Call for availability.
ORGANIC LION BRAND SRW WHEAT Call for availability.

ORGANIC WINTER RYE
ORGANIC AROOSTOOK WINTER RYE An earlier maturing rye, thus a good choice for rolling. Ask for pricing in July.
ORGANIC SPOONER RYE High yielding, tall, excellent winter hardiness. Ask for pricing in July.
ORGANIC VNS WINTER RYE Quick growing, very winter hardy, cover crop, fall and spring grazing, chopping, or green manure. $20.25/56#

ORGANIC SPECIALTY SMALL GRAINS
ORGANIC EMMER WHEAT Ancient relative of wheat, planted with hull on, should not be planted in very fertile soil as lodging will occur. $63/50#
ORGANIC GOLDEN FLAX Ask for availability.
ORGANIC SPELT Ask for availability.
ORGANIC DAYTONA BLACK SUNFLOWER 200,000 seeds per bag, approximately 29# Ask for Pricing.

SWEET CORN
Call for prices of other quantities.
ORGANIC 2171 F1 (sh2)-75 days, bi-color, super sweet, well filled ears with 14-16 kernel rows 8.25” long ears. Coated $35.05/#
UNTREATED TEMPTRESS (se)- 70 day, bi-color, excellent emergence and early vigor, large attractive ears. Coated $19.05/#
UNTREATED LUSCIOUS (tsw)-75 day, bi-color, good relative cold germination, 16-18 kernel rows on 8” ears. Coated $17.05/#
UNTREATED BODACIOUS (se)- 75 day, all yellow, good ear size, hearty plant, tender kernels. Coated $16.05/#
UNTREATED AMBROSIA - 75 day bicolor. $13.81/#
UNTREATED INCREDIBLE- 85 day yellow. $13.81/#

ORGANIC SOYBEAN SEED
We offer a complete line of soybean seed varieties from the following companies:

Our most popular varieties are:
ORGANIC VIKING O.2265-Feed Grade, 2.2 maturity, medium-tall, bushy, high yields, excellent emergence. $41/140M
ORGANIC VIKING O.2399AT12N-Feed or Food Grade, 2.6 maturity, medium tall, good cyst and aphid resistance. $45/50#
ORGANIC BLUE RIVER 26FO –Food Grade, 2.6 maturity, good yield potential, medium-tall bush type, protein 44.6%. $50/110M
ORGANIC BLUE RIVER 27AC5-Feed Grade, 2.7 maturity, exc. yield potential & agronomics, cyst resistant, aphid tolerant. $50/140M
ORGANIC eMERGE 289-Feed Grade, 2.8 maturity, tall & bushy, handles stress well, has performed well for us. $47/140M
ORGANIC VIKING O.3018N-(New)-Feed Grade, 3.0 maturity, tall & bushy, cyst resistant, strong performer PA to NE. $45/50#
ORGANIC BLUE RIVER 31C6-Feed Grade, 3.1 maturity, exc. emergence, gd. yield potential, strong agronomics, cyst res. $50/140M
ORGANIC BLUE RIVER 34A7 Feed Grade, 3.4 maturity, top performer from PA to NE, exc. yield potential, aphid tolerant. $50/140M
ORGANIC SEED CORN

We offer a complete line of corn seed varieties from the following companies:

Our most popular hybrid varieties are:

ORG. BLUE RIVER 43L96-98 day- Leafy Floury, silage corn, tall, white cob hybrid with more leaves above ear, less lignin. $225/80M

ORG. MASTERSCHOICE 5250-102 day-Floury, white cob, flex, enhanced silage & grain quality, outstanding health. $260/80M

ORG. VIKING O.86-03UP-103 day-Outstanding grain yield, quality and agronomics; very good test weight, exc. drydown.$238/80M

ORG. MASTERSCHOICE 5300-103 day-Floury, strong emergence/ seedling vigor, vg. performance, tonnage, & bushels $260/80M

ORG. BLUE RIVER 53L96-104 day- Leafy Floury, silage corn, tall, white cob hybrid with more leaves above ear, less lignin$225/80M

ORG. VIKING O.51-04PGS-105 day-Outstanding digestibility and tonnage for silage and superior dual purpose corn. $218/80M

ORG. MASTERSCHOICE 5790-107 day-Semi-floury, strong emergence and early growth, high yield potential, semi-flex. $260/80M

ORG. MASTERSCHOICE 535-107 day-Semi-floury, high grain digestibility & sugar silage quality, quality & performance. $260/80M

ORG. BLUE RIVER 58PM36-107 day PuraMaize combats pollen contamination by GMOs, plus it is a very good corn. $240/80M

Our most popular open-pollinated varieties are:

ORG. ALBERT LEA E-95--(94-97 day)- organically grown open-pollinated, improved variety for yield and standability. $98/80M

UNTREATED Non-GMO REID YELLOW DENT-100-110 day open-pollinated corn. Produces large kernels and ears. $100/50#

CONVENTIONAL, UNTREATED, NON-GMO SEED VARIETIES for 2018

Cool Season Nitrogen-Fixing Cover Crops  Continued

Common Vetch- Variety not stated. $48/50#

4010 Forage Peas- a spring planted forage pea that may be used for biomass and nitrogen source. $48/50#

Austrian Winter Peas- Highly nutritious winter annual, great for silage & green manure. $48/50#

White Blossom Sweet Clover- High nitrogen producing biennial legume, grows 5-6 feet tall. Excellent for honey production. $250/50#

Yellow Blossom Sweet Clover- Tall growing biennial clover, high biomass & N production, attracts bees, gr. manure crop $37/50#

Alta-Swede Mammoth Red- Single cut clover, taller & courser than other red clovers, green manure crop. $37/50#

Lentils- Cool season legume, well suited for cover cropping. $37/50#

White Sweet Lupin- Cool season cover crop, aggressive taproot builds soil structure deep in the profile, exc. N fixation. $48/50#

Faba Beans (aka Fava)- Tall, bushy annual legume, thrives in cool, wet conditions- not tolerant to heat & drought, $37/50#

Plowdown Alfalfa- Hi-Nitro brand alfalfa, produces more nitrogen than regular alfalfas. $233/50#

Plowdown Mix- Soil builder, N provider. 24% Alfalfa, 24% Mammoth Red, 24% Alsike, 24% Sw. Clover, 4% Ladino $135/50#

No-Sweet Plowdown Mix- Soil builder, 32% Alfalfa, 32% Mammoth Red, 32% Alsike, 4% Ladino $145/50#

Warm Season

Frosty Berseem- more cold tolerant than other Berseem clovers, survive down to 10°F, Fast growing summer annual, 1 yr. hay crop OMRI Coated $141/50#

Fixation Balansa Clover- Annual legume produces exceptional qualities of N, superior reseeding properties OMRI Coated $126.50/50#

Crimson Clover- Southern clover, used as a summer annual in Midwest, 1 year hay crop or plowdown. OMRI Coated $77/50#

Iron and Clay Cowpeas- Viginous growing summer annual, good nitrogen producer; drought resistant, thrives in hot, wet conditions. $47/50#

Sunn Hemp- Tall growing, warm season annual legume, tremendous bio-mass & nitrogen potential $83/50#

Soil Improvement/Biomass/Weed Suppression Cover Crops

Gulf Annual Ryegrass- Establishes rapidly, excellent biomass, green manure plowdown. True annual. $52/50#

Buckwheat- Fast growing summer annual, used as green manure, suppressing weeds, loosens the topsoil. Volume discount. $33/50#

Cover Crop Oats- Economical blend of oats that may be used for cover cropping and fall forage. *$9/ bu.

Groundhog Radish- Fast growing cover crop, break up compacted soil, scavenges N and other nutrients. Large root. $2.26/#

Tillage Radish- Fast growing cover crop, break up compacted soil, scavenges N and other nutrients. $133/50#

Dakion Radish- Variety Not Stated. Fast growing cover crop, break up compacted soil, scavenges N and other nutrients. $83/50#

Yellow Mustard- Economical choice, good fit frost seeded before small grain or soybeans $63/50#

Pacific Gold Mustard- Bred specifically for cover cropping, rapid growth, can suppress soil fungi, nematodes & insects $146.50/25#

Phacelia- Non-leguminous broadleaf, used for cover crop & for bee forage, produces abundant biomass & conditions soil. $173/50#

Dwarf Essex Rape- Succulent, leafy brassica; quick growing, good biomass accumulation, exc. fall cover crop. $48/50#

Purple Top Turnips- Large bulb, can be used for pasture, livestock eat tops then pull out tubers & eat them, 55 days. $78/50#

Winter Rye- Excellent choice for a fall rotation crop or cover crop, produces lots of biomass for green manure. $16.25/50# bag

Cover Crop Mixes

Viking NitroMax (CC1)- Blend of 48.5% Oats, 48.5% Field peas and 3% Radish. $28/50#

Viking ValueMax (CC2)- Blend of 20% Crimson Clover, 60% Annual Ryegrass, 15% Radish, and 5% Dwarf Essex Rape. $58/50#

Viking WinterMax (CC3)- Blend of 75% Winter Rye, 20% Hairy Vetch, and 5% Radish. $34/50#

Viking AerialMax (CC5)- Specialized mix of 75% Winter Rye, 15% Lentil, 5% Turnips & 5% Dwarf Essex Rape $27/50#

Viking SummerMax (CC6)- Blend of 15% Sorghum Sudangrass, 15% Japanese Millet, 10% Sunn Hemp, 30% Buckwheat, & 30% Soybeans. $37/50#

Viking MultiMax (CC7)- 40% Ann. Ryegrass, 15% Lentils, 5% Radish, 15% Firxation Clover, 5% Turnips 15% Berseem Clover, 5% Dw. Essex Rape. $69/50#

N-Vest’ Crimson Clover- All Mix- Mix of Crimson Clover and Groundhog Radishes, produces & scavenges N $86/50#

N-Vest’ Forager Mix- Combination of Oats, Winter Rye, and Appin Turnips, exc. for aerial application $22/50#

N-Vest’ GroundBreaker Mix- Contains Austrian Winter Peas and Groundhog Radishes, produces & scavenges N $57/50#

N-Vest’ NurtriiBuildr Mix- Combination of winter hardy Annual Ryegrass, Crimson Clover, Ground Hog Radishes $72/50#

Brassicas

Pasja Hybrid Forage Brassica- early maturing, high yielding sweet leaves bred for multiple grazings. 50-60 day maturity. $3.31/#

T-Raptor Hybrid Forage Brassica- early maturing, cross between a forage turnips & a forage rape. Ready in 40-55 days. $4.21/#

Barsica Forage Rape Seed- Early maturing with high yield with excellent cold tolerance. 80-90 day $41.25/25#

BonaR Rape Seed- Higher yielding, later maturing, bred for improved palatability & greater leaf to stem ratio. 90-110 day $2.80/#

Dwarf Essex Rape- Lower growing, very nutritious, provides high protein and energy levels 40-50 day maturity. $48/50#

Kale- VNS, Survival tolerance down to 10 F, compares favorably with alfalfa as pastureage, very leafy. $203/50#

Kestrel Kale- Full maturity, leafy kale with short stems, bred for high digestibility, 150-220 days to grazing. $5.56/#

Major Plus Swede- A full maturity Swede, (from 160 days), yellow flesh bulb with red skin color, 84% of yield in bulb. $5.31/#

Appin Forage Turnips- Bred for fast, vigorous establishment and quick maturity, very leafy, multi crown, 60-100 days. $3.31/#

Barkant Forage Turnips- Improved variety, tankard shaped bulb with high leaf to stem ratio, 60-90 days maturity $62.75/25#

Purple Top Turnips- Large bulb, can be used for pasture, livestock eats tops then pull out tubers & eat them, 55 days. $78/50#

Small Grain Seed

Bowers Spring barley- (Ohio Certified Seed) Six row medium-early maturity, medium height good test weight. Order early! $15.00/ bu.

Conlon Spring Barley- Proven 2-row malting barley recommended by AMBA, early maturity, good standability & grain yields. $16.50/ bu.

KWS Tinka- licence required- 2 row malting barley. 2nd highest yielding in Cornell Trails. Medium height and maturity. $17/ bu.

Morex Spring Barley- six row feed barley-suitable for baling, chipping or feeding. $12.50/ bu.
SPRING BARLEY—Sold in 48# bushel bags

ND Genesis- license required-AMBa 2-row malting barley, better foliar disease resistance and yield potential than Pinnacle. $15.50/bu.

Pinnacle Spring Barley- A two row malting variety recommended by AMBA, medium maturity, strong straw strength. $15.50/bu.

Rasmusson Spring Barley- 6-row malting barley, highest-yielding feed barley, suitable for underseeding. $15.50/bu.

Robust Spring Barley- (Uncertified) Six row malting barley, early medium tall height, good yield, tw, disease resistance and standability. $12.50/bu.

Royal Spring Barley- A semi-dwarf forage barley, used as a companion type, six row. $15.50/bu.

Hays Spring Barley- (Uncertified) Forage barley. Very tall, great for baling or chopping. Not for underseeding. $21/bu.

WINTER BARLEY—Sold in 48# bushel bags

Scala—2 row malting barley, Excellent yielding and malting qualities. KWS release. Call for availability in August

Violetta—2 row, bred for superior malt quality, earliness, short height, and disease resistance. Call for availability in August

SB151—6 row feed barley, early maturing, med. height, with excellent standability & disease res. Call for availability in August

BUCKWHEAT - Volume Discounts

Buckwheat-Fast growing summer annual, used as green manure, suppressing weeds, loosens the topsoil. Volume discount. $33/50#

GRAIN OATS— Sold in 1 ½ bushel bags Certified unless noted. *may cost additional shipping.

AC Morgan Oats- (Non-certified) A high yielding milling oat with medium maturity. Tall plant with exc. lodging resistance. $11.50/bu.

Antigo Oats- Early maturity, excellent test weight, high grain yield, good tolerance to BYDV and Crown Rust. *$11.50/bu.

Armor Oats- (Ohio Certified Seed) high yielding, mid-season, exc. resistance to lodging, slightly taller than avg., mod. resistance to BYDV $12/bu.

BetaGene TM Oats-mid-late maturity variety with good yield potential, higher in beta glucan. *$10.50/bu.

Deon Oats-Late season, high yielding, med-tall w/ good standability, good test wt., exc. disease resistance, yellow seed. *$10.50/bu.

GR 65 Oats-(Ohio Certified Seed) Taller oat, good lodging resistance, white seeded $12.50/bu.

Hayden Oats-Medium maturity, excellent yield potential, medium height, high test weight. White oat *$10.50/bu.

Horsepower Oats—Short oat, early to medium maturity, excellent yield potential, white hulled $11/bu.

INO9201 Oats-(Non-certified) Very popular oat, short, with high yield, resistance to BYDV. $10.75/bu.

Morton Oats-(Non-certified) Tall, late oat, with heavy test weight, excellent for silage $11/bu.

Noble Oats-(Ohio Certified Seed)-Med. season stiff straw variety, med. short, brownish yellow grain having med. resistance to loose smut &BYDV $12/bu.

Reins Oats—Early maturity, good lodging resistance, moderately short, plump tan kernels, good choice for underseeding. $11/bu.

FORAGE OATS— Sold in 1 ½ bushel bags Certified unless noted. *may cost additional shipping.

Goliath Oats- Forage oat that is very tall &late maturing, Excellent forage yields. Not recommended for underseeding. $11.50/bu.

Forage Plus Forage Oat- (WI Cert.)True forage oat, exceptional yields & quality, leafy& soft stemmed, med-tall good standability. *$15/bu.

PEAS Grain and/or forage

4010 Field Peas-Excellent forage variety, tall with large leaves, great companion crop with small grains. $21/50#

DS Admiral Yellow Field Peas-Tall growing and leafy, good standing, Suitable for grain or cut forage. $23/50#

Austrian Winter Peas-Highly nutritious winter annual, great for silage & green manure. Good nitrogen source for spring crops. $33/50#

PEA MIXES

Oat/4010 Pea Mix-50/50 mix of tall forage oats and 4010 forage peas. Very fast establishing. $19.50/50#

Pea-Oatlage-45% 4010 forage peas and 55% tall forage oats. Very fast establishing. $22/50#

Barley/4010 Pea Mix-50/50 mix of tall, yielding barley with 4010 forage peas. $19.50/50#

Triticale/4010 Pea Mix-50/50 mix of spring triticale and 4010 peas, Highest quality of any pea mixture. $19.50/50#

Pea-Tritlage-45% 4010 forage peas and 55% spring triticale. $24.50/50#

SPLELT.

We offer several of French Hybrids Non-GMO Spelt varieties. Please contact us in August for our current offerings.

SPRING TRITICALE

Spring Triticale-Cross between fall rye grain and spring wheat. $18/50#

WINTER TRITICALE

TRICAL 718—Cross between fall rye grain and winter wheat. Very good lodging resistance and good winter hardiness. Call in August

TRICAL 815—Cross between fall rye grain and winter wheat. Very dense canopy of long leaves with good yield potential. Call in August

HARD RED SPRING WHEAT Volume Discounts!

Bolles HR Spring Wheat (Certified)-Leader in grain protein and baking desirability, medium-late maturity, good straw strength. $19.50/50#

Briggs HR Spring Wheat- (Certified)Early maturing, mod. resistance to stem & stripe rust, good milling & baking qualities. $19.50/60#

Forefront HR Spring Wheat-(Certified)Early maturing, exc. test wt., leader in grain protein, good straw strength good fit for hotter drier growing. $18.50/50#

Shelly HR Spring Wheat-(Certified) Best yielding feed grade wheat, later maturing, shorter height with good standability. $19.50/50#

HARD RED WINTER WHEAT-Additional varieties available-Call in August

Wesley HR Winter Wheat- Early maturing, resistant to stem rust and moderately resistant to stripe rust and leaf rust. $18.75/60#

SOFT RED WINTER WHEAT-Additional varieties available- Call in August

Limagrain L334 Soft Red Winter Wheat-(Certified), Mid-season, excellent yield potential, disease resistance, good standability. $17/50#
WINTER RYE-Additional varieties available- Call in August
Aroostook Winter Rye-Excellent cover crop and the variety of choice for roller crimping. Call in August
VNS Winter Rye-Excellent cover crop, builds organic matter, prevents erosion, and suppresses weeds. $16.25/50#

SPECIALTY GRAINS
Flax- Variety Not Stated
Soybean-Milo Mix- A mix of milo and group 3 soybean, use for haylage or silage.
Succotash-33.3% early wheat, 33.3% spring barley, and 33.3% oats.
Sunflowers- Black oilseed.

GRASSES and ANNUAL FORAGES

KENTUCKY BLUEGRASS
Balin Grazing Kentucky Bluegrass-Bred for high yields and tolerance to intense grazing, taller, competes well with other grasses. $143/50#
Ginger Forage Kentucky Bluegrass-High yielding forage variety. highly palatable, tolerates close grazing, larger leaf. $157/50#

BROMEGRASS
Fleet Meadow Bromegrass-Winter hardy, excellent regrowth, excellent for grazing or haymaking, very palatable. $143/50#
Hakari Bromegrass-(Barenbrug) Bred for cooler, drier conditions of Midwest and Northeast, excellent companion to alfalfa. $203/50#
Lincoln Bromegrass-Smooth Bromegrass used in waterways and pasture. Sod forming. $143/50#
Smooth Bromegrass-Sod forming, very persistent. $128/50#

REED CANARYGRASS
Reed Canaygrass- Variety Not Stated, low alkaloid, tall growing, high yielding, sod forming perennial, well adapted to wet soils $153/50#
Palaton Reed Canary Grass-Newer variety with low alkaloid content, palatable to grazing animals, pasture/hay making $5.31/#

MEADOW FESCUE
Preval Meadow Fescue-Med. maturing with improved disease resistance, very winter hardy, tolerant drought, wet soils, & close grazing, exc. for rotational grazing & high yielding, very good regrowth $129/50#
HDR Meadow Fescue Blend-(Barenbrug) High yielding, improved palatability, winter hardy, high digestibility & energy for dairy & beef $153/50#
Meadow Fescue-Variety Not Stated $118/50#

TALL FESCUE
Barolex Tall Fescue-(Barenbrug) Improved variety that produces high quality forage. Soft leaved, very palatable for pasture or hay. $140/50#
Bronx Tall Fescue-Outstanding variety, very palatable, excellent in both hay and grass mixes. $111/50#
Cowgirl Tall Fescue-Soft-leaved, highly palatable, exc. for haying or grazing $96/50#
Fawn Tall Fescue-Used primarily for waterways or erosion control. $82/50#
Milkway Fescue Blend-(Barenbrug)-contains high yielding meadow fescues and extremely digestible soft-leaved tall fescue. $168/50#
STF 43 Tall Fescue-(Barenbrug) Premium blend of late maturing fescues. Highly digestible, exceptional levels of dry matter. $140/50#

FESTULOLIUM
Duo Festulolium-highest yielding, high palatability with highfeed value and persistence. $109/50#
Spring Green Festulolium-Fast establishing, fast recovery, high forage yields with winter hardiness. $100/50#

ORTHGARDGRASS
Amba Orchargrass-Early maturing, highly digestible, high yield potential, and good disease resistance. $163/50#
Devour Orchargrass-Grazing type with a prostrate growth providing persistence under grazing pressure, high yielding, late. $197/50#
Eschion Orchargrass-Very late maturity, very good forage yield & disease resistance. $193/50#
HLR Orchargrass Blend--(Barenbrug) Blend of late maturing orchardgrassses including Baridana and Baraula, excellent choice $115/25#
Latar Orchargrass-Late maturing, hardy, very palatable with lower fiber content, excellent in hay and pasture. $187/50#
Profit Orchargrass-Late maturing, bred for forage production. Impressive dry matter production. $195/50#
Tekapo Orchargrass-Early maturing w/dense tillering & developed for grazing. Low crown & dense, prostrate growth. $195/50#

ANNUAL RYEGRASS
Annual Ryegrass-Diploid VNS, best used for single year forage, living mulch or green manure. $45/50#
Bruiser Annual Ryegrass-diploid, excellent cold tolerance, late maturing, high feed quality, excellent grazing/cover crop. $55/50#
Gulf Annual Ryegrass-Economical variety that is considered a true annual. $52/50#
Rival Annual Ryegrass-Improved variety, later maturing, tetraploid, with fast growth and regrowth, palatable. $55/50#

ITALIAN RYEGRASS
Feast II Italian Ryegrass-high producing tetraploid variety, bred for grazing, offers high energy & feed quality. $71/50#
Fox Italian Ryegrass-Diploid annual variety that is high yielding in summer months. $63/50#
Green Spirit Italian Ryegrass-(Barenbrug) Blend of early & late varieties, great regrowth, persistence & high production. $97/50#

PERENNIAL RYEGRASS
BG-24T Perennial Ryegrass-(Barenbrug) Blend of intermediate & late diploid and tetraploid varieties, exc. palatability. $108/50#
BG-34 Perennial Ryegrass-Diploid blend of late maturing, persistent, disease resistant, & highly digestible ryegrass. $125/50#
Calibra Perennial Ryegrass-Tetraploid, productive variety. Highly digestible for pasture or silage. Good winter hardiness. $93/50#
Linn Perennial Ryegrass-Older variety, used mostly in lawn mixes, road banks, & terraces. $78/50#
Power Perennial Ryegrass-Medium maturing tetraploid variety, produces large amounts of high energy forage. $117/50#
TEFF GRASS
Tiffany Teff Grass-Warm season annual grass, produces high quality hay in relatively short growing season, OMRI Coated $153/50#

TIMOTHY
Barpenta/Barfleo Timothy-(Barenbrug) blend, fast establishing, late maturity, above avg. persistence, very good yield $123/50#
Climax Timothy-Older variety, tall, fine-stemmed and leafy, medium maturity, standard in timothy for years. $44/50#
Tuukka Timothy-Improved timothy, exhibits faster regrowth, leafier, improved yield & higher relative feed value. $85/50#

LAWN SEED- Non-GMO with no additives!
Appalachian Kentucky Bluegrass-Offer early season dark green color, improved and shade tolerance. $155/50#
Concerto Kentucky Bluegrass-Improved disease and drought resistance, good seedling vigor, excellent for upper Midwest.. $153/50#
Wildhorse Kentucky Bluegrass- Aggressive and vigorous bluegrass with high tiller density and rich color. $160/50#
Creeping Red Fescue-Fine bladed spreading grass. Tolerates shade very well, making it a nice companion in lawn mixes. $95/50#
Turf-type Fescue-Fine bladed, tough fescue that can withstand heavy traffic better than other lawn grasses. $99/50#
Turf-type Perennial Ryegrass-Quick establishing, lower growing, fine bladed, does well in sunny area. $97/50#

Our Best Lawnsseed Mix-Combination of fine bladed grasses, blended for high quality dense sod. Improved vigor, drought resistance, rapid spring greenup, and disease resistance. Call for mixture. $135.50/50#
All Purpose Lawnsseed Mix-Excellent overall lawn mix for areas that receive sun and shade. Call for mixture. $57.50/25#
Ruff +Tuff Lawnseed Mix-Good choice for athletic fields, roadways, playgrounds, & other high traffic areas. Call for mixture. $110.50/50#
Sunny Lawnsseed Mix-Great choice for lawns without shade. Call for mixture. $58.50/25#
Urban Lawnsseed Mix-Provides a plush lawn that is tough and persistent. Call for mixture. $69.50/25#
Shady Lawnsseed Mix-Grade tolerant, fine-bladed grasses Call for mixture. $120.50/25#
Sustainable Lawn- Attractive lawn with slow growth rate. For no mow areas, vineyards, orchards, dense shade, and septic mounds. $140.50/50#

**GRAZERS ELITE MIX**-50% Tekapo Grazing Orchardgrass, 20% Duo Festulolium, 20% Power Perennial Ryegrass, 7% Starfire Red Clover, 3% Legacy White Clover $168/50#

**GRAZERS GOURMET MIX**-30% Grozer Brand Alfalfa, 30% Tekapo Grazing Orchardgrass, 13% Power Perennial Ryegrass, 10% Duo Festulolium, 10% Bull Birdfoot Trefoil, 7% Oasis Chicory $184/50#

**GREAT GAINS** Sucreased High Sugar Grass Mixes (great for sheep) - 58% Aber HSG Perennial Ryegrass, 29% AberEve HSG Tetraploid Intermediate Ryegrass, 8% FixiatioN Balansa Clover, 5% Chocory $161/50#

**PASTURE & WATERWAY MIX #9**-20% Fleet Meadow Bromegrass, 15% Duo Festulolium, 15% Profit Orchardgrass, 10% Lincoln Smooth Bromegrass, 10% Tuukka Timothy, 10% Bronson Tall Fescue, 10% Starfire Red Clover, 10% Alsike Clover $78.50/25#

**HAYMAKER MIX**- Provides improved persistence, palatability, feed quality and tonnage. 75% 330M Alfalfa, 15% Climax Timothy and 10% Ruby Red Brand Medium Red Clover $113/50#

**SUMMER ANNUAL FORAGES**

**MILLET**: Do not use for horses-Avoid Prussic Acid Poisoning

German Foxtail Millet-Used for hay due to fine stems and leafiness, produces a one cut crop, cut at late boot stage. $41/50#

Hybrid Pearl Millet- Tallest of the millets, 7-10’, course and similar to sorghum-sudan but easier to dry down. Non BMR $59/50#

ExCeD Hybrid Pearl Millet- Tallest of the millets. BMR $73/50#

Japanese Millet-Gives most tonnage of all millets. Makes 3-4 crops if not allowed to head out. $43/50#

Proso Millet-A grain millet, primarily used for bird and livestock feed. $31/50#

**FORAGE SORGHUM-Avoid Prussic Acid Poisoning**

Redtop Plus BMR Forage-Use for grazing, silage, haylage, 7-9’ tall, male sterile, gene 6, exc. palatability. $68/50#

Bundle King Forage Sorgum-Super sweet, tall sterile hybrid, exc. leaf to stem ratio, good for starting new calves, great for making homemade sorghum syrup, use for grazing or chopping. $61/50#

Viking 401 BMR Forage Sorgum-Single cut silage or green chop. Sweet stalk for excellent palatability. Manage for prussic acid. $63/50#

**GRAIN SORGHUM—Avoid Prussic Acid Poisoning**

Blue River 52R7-52 days to 50% bloom- Very early, red grain, excellent standability, can be used as a double crop. $90/50#

Blue River 59CT4- Food use, ex. drought tolerance, high yield, very good standability & threshability, short-med tall, cream grain. $90/50#

Blue River 63CS- 63 days to 50% bloom Ex. emergence & drought tolerance, very good yield & standability, med-tall plant, cream grain. $90/50#

Blue River 67B4-67 days to 50% bloom Ex. early growth in cooler soils, high yields, good standability, Bronze grain. $90/50#

Blue River 76WT4-Food use, very good yield &standability, medium-tall plant, white grain $90/50#

Miilo or Grant Sorgum OP-VNS, 4-5 feet tall, matures in about 100 days $25/50#

Rox Orange Cane-Fast growing warm season annual grass, drought tolerant, 8-12’, can produce sweet sorghum syrup. $55/50#

WGF (Wild Game Food) Milo-Early maturing, 24-34”, Mid-bloom in 45 days, mature seed 85-100 days. $52/50#

**SORGHUM SUDANGRASS-Avoid Prussic Acid Poisoning**

BMR Sorghum Sudan Hybrid (NutriPlus)-Preferred by livestock for its palatability and digestibility, Gene 6, BMR. $55/50#

Viking 100 Brand Sorghum Sudangrass-Good tonnage, fast establishment, high sugar content in stem (10-14%) $27/50#

Viking 200 Brand Sorghum Sudangrass-Brown mid-rib, superior quality forage, increase tillering, rapid growth, exc. palatability, digestibility $51/50#

Viking 300 Photo-Sensitive BMR Sorghum Sudangrass-Exc. forage quality, wide window for harvesting $59/50#

Cadan WMR Sorghum Sudan Hybrids-White mid rib, low lignin content, high protein/tonnage, high sugar, sweet flavor. $48/50#

Tridan Sorghm Sudan Hybrid-Leafy, highly nutritious, exc. grazing, hay, green chop, silage, recovers quickly. $31/50#

**GRASS-LEGUME MIXTURES** Continued

**SORGHUM SUDANGRASS-Avoid Prussic Acid Poisoning**

BMR Sorghum Sudan Hybrid (NutriPlus)-Preferred by livestock for its palatability and digestibility, Gene 6, BMR. $55/50#

Viking 100 Brand Sorghum Sudangrass-Good tonnage, fast establishment, high sugar content in stem (10-14%) $27/50#

Viking 200 Brand Sorghum Sudangrass-Brown mid-rib, superior quality forage, increase tillering, rapid growth, exc. palatability, digestibility $51/50#

Viking 300 Photo-Sensitive BMR Sorghum Sudangrass-Exc. forage quality, wide window for harvesting $59/50#

Cadan WMR Sorghum Sudan Hybrids-White mid rib, low lignin content, high protein/tonnage, high sugar, sweet flavor. $48/50#

Tridan Sorghm Sudan Hybrid-Leafy, highly nutritious, exc. grazing, hay, green chop, silage, recovers quickly. $31/50#

**SUDANGRASS-Avoid Prussic Acid Poisoning**

Piper Sudangrass-Fast growing, annual grass, grows 4-7’ tall, harvest at 30”, high levels of energy & protein. $45/50#

Pro-Max BMR Hybrid Sudangrass-Brown mid-rib, low lignin content, high palatability & digestibility, gene 12. $87/50#

**TEFF GRASS**

VNS Teff Grass-Warm season annual grass, produces high quality hay in relatively short growing season, OMRI Coated $128/50#

Tiffany Teff Grass-Warm season annual grass, produces high quality hay in relatively short growing season, OMRI Coated $153/50#
We offer a complete line of corn seed varieties from the following companies:

![Welter Seed and Honey Company](image)

**Our most popular hybrid varieties are:**

**VIKING 60-01-101day-Semi-flex ear, v.good t.wgt.grain & tolerance to Goss wilt, v.good overall plant health & fall stalk & root strength** $160/Bag

**MASTERSCHOICE 5250-102 day-Floury, white cob, flex, enhanced silage & grain quality, outstanding health.** $205/80M

**VIKING 40-03UP-104 day-Outstanding yield potential, wide soil range, ex. drought tolerance, med-short, ex. drydown** $180/Bag

**PRAIRIE HYBRIDS 2607-103 day-Semi-flex on red cob, high yield potential, good drydown, and medium tall.** $200/80M

**MASTERSCHOICE 5370-103 day-Semi-floury, semi-flex light red cob, taller, very competitive yields of silage or grain.** $200/80M

**VIKING 51-04GS-104 day-Outstanding dual purpose, ex. digestibility, tonnage, & late season health, above avg, height, med.-heavy soils** $160/Bag

**MASTERSCHOICE 5660-106 day-Semi-floury, massive flex leads to outstanding yield, lt. red cob, vg. stress tolerance.** $205/80M

**MASTERSCHOICE 535-107 day-Semi-floury, high grain digestibility & sugar silage quality, quality & performance.** $200/80M

**MASTERSCHOICE 5790-107 day-Semi-floury, strong emergence and early growth, high yield potential, semi-flex.** $205/80M

**PRAIRIE HYBRIDS 5879-107 day-flex, pink cob, adapts well to all soil types, very consistent high yields.** $200/80M

**PRAIRIE HYBRIDS 5200-108 day-flex, pink cob, responds well to manures, ex. silage hybrid, tonnage & digestibility, hand pick** $200/80M

Note: MastersChoice with glyphosate tolerance may be ordered.

**WILDLIFE SEEDS**

**BIG BUCK PERENNIAL MIX**-Formulated for long-term plots, mix contains items deer love including: Yellow Sweet Clover, Starfire Red Clover, Delar Burnett, Berseem Clover, Duo Festulolium, Jumbo Ladino Clover, and Chicory. Increases animal and antler size. $80/25#

**BIG BUCK ANNUAL MIX**-High energy, highly nutritious annual mix containing: Austrian Winter Peas, Forage Turnips, Swedes, Forage Brassicas, and Rape. Plant late summer/early fall. $45.50/25#

**BIG BUCK BRASSICA MIX**-A mix of our customer’s favorite Brassicas. Mix includes: Purple Top Turnips, Multi-crowned Pasja Hybrid Brassica, Ground Hog Radish, and Dwarf Essex Rape. Excellent deer attractant and food. $2.56/#

**BIG BUCK DEER MIX**-Perennial mix of Red, Crimson, & White Clover, Alsike Clover, Alfalfa, Perennial Ryegrass, Forage Rape $143/50#

**BUCKSHOP BRASSICAS**-Forage rape, Purple Top Turnip, Radish, Kale $26/8#

**DEER PELLETS by ANTLER KING**-Backyard treat or supplemental feed for deer. Contains: protein, vitamins, and special yeast culture. $17.99/50#

**HI-PROTEIN BIG BUCK BLOCK**-Magnet to keep deer in your area. Protein and nutrient-rich for antler and body growth. $25.50/25# Block

**SWEET SPOT MIX**-Specialty deer mix by Sucraseed with high sugar grasses for increased weight and antler size. Mixture includes: high sugar grasses, white and red clovers, berseem clover, Balansa clover, turnips and chicory. $37/10#

**FEATHER FLUSH**-Fast growing summer annuals. Great habitat & feed. Mix includes: Grain Sorghum, Buckwheat, Field Peas, Peredovik Sunflower, and Proso Millet. $65.50/50#

**FROSTY SUITE**-Austrian Winter Peas, Winter Wheat, Winter Rye, Buck Forage Oats $36/50#

**DELABurnett**- Perennial evergreen forb that produces in the winter and is relished by wildlife. $188/50#

**PEREDOVIC SUNFLOWERS**-High yielding, high oil content sunflowers that are palatable and a great wildlife resource. $34/50#

**BUCK FORAGE OATS**-Wildlife specific oat variety that is late maturing and stays green into winter, increasing grazing potential. $37.50/50#

**SAINFOIN**-A non-bloating, deep-rooted perennial, very drought resistant, palatable legume for grazing. Good for honey production. $3.31/#

**SUGAR BEETS**-Very nutritious, leafy, palatable forage for deer. Deer will eat leaves and roots. High sugar and protein content. $7.06/#

Don’t forget to look at rape seed, turnips, chicory, milo, peas, clover, grasses, grains and more in our non-GMO and Organic listing!

**Notes:** A full line of inoculants is available upon request. $4.00 fee for Partial Bag

Catalog available upon request for Garden Seeds, Seed Potatoes, Onion Sets, Shallots.

**Early Pay Discounts:** Albert Lea Seed – Corn and Soybean Only Early Pay Discount of 3% paid by February 15, 2018

Blue River Hybrid – Early Pay Discount of: 4% until January 31, 2018; 3% until February 28, 2018; 2% until March 31, 2018; 1% - April 30, 2018

Welter Seed and Honey Company – All Items- Early Pay Discount of 4% until January 31, 2018; 3% until February 28, 2018. $15 Discount on selected conventional alfalfa varieties if purchased by February 28, 2018.

MastersChoice Seed Corn-as an introductory offer, we will offer Masters Choice Corn Seed at the September Pre-Pay Discount Rate of $12 off per bag until February 28, 2018.
ORGANIC FERTILIZERS for 2018

PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE and does not include shipping.

SOIL TESTING

Soil testing is a valuable tool in determining the condition and needs of your soil. This can result in more productive crop yields, richer lawn and gardens, plus savings in your fertilization program. Analysis includes Cation Exchanges Capacity (C.E.C.) of your soil, pH, organic matter content and levels of potassium, phosphorus, calcium and magnesium as well as the base saturation percentages for calcium, magnesium, potassium and hydrogen. Recommendations are made using organic products. Simply take 8-10 probes of soil in area to be tested, mix together, and send 2 cups of mixture to us. Identify whether the test is for garden, lawn or field. If field, state what crop was planted last year and what crop will be planted this year. Allow at least three weeks for results. Call us for the Soil Testing Information Sheet that is right for you. Payment required with soil sample.

Basic Soil Test -- $20

Micronutrient Package (Additional tests for iron, copper, manganese, boron, sulfur, and zinc - $20

If you desire, we will come and sample your soil and submit for testing. Call for prices.

ORGANIC FERTILIZERS

Try Nature Safe Organic Fertilizers

NATURE SAFE ORGANIC NITROGEN FERTILIZER (13-0-0) OMRI Listed. NOP Compliant. GREAT FOR CORN!

Promotes healthier soil, higher yields improve crop quality and less disease with Nature Safe Organic Fertilizers. Made from quality proteins, Nature Safe’s 13-0-0 is the highest organic nitrogen formulation available commercially. NOP guidelines validate its unrestricted use in the production of organic certified crops. Nature Safe releases up to 12 times the available nitrogen versus manure. Controlled release granular/pellets deliver a balanced feed that will not leach. The water insoluble nitrogen will slowly release for 8-12 weeks. Will not burn plants or tender roots. Can be drilled, broadcast or used in top dress. Great for side dressing high nitrogen requiring plants such as corn. Field crops 200-400 lbs. in the row or more per acre based on nitrogen needs; Vegetables 200-400 lbs. or more per acre based on nitrogen needs. This results in more fertility value and improves application efficiency. Increase the return on your investment with Nature Safe 13-0-0.

Order early!

Ton in 50# Bags= $1028.50  Ton in Tote= $1019.70
50 lb. Bag (53#) = $29.57

NATURE SAFE ORGANIC FERTILIZER (8-5-5) OMRI Listed. NOP Compliant.

Pelletized multi-purpose fertilizer. Ideal for vegetables, grains, and fruits of all kinds. Excellent for transplants and direct seeded crops. Contains Protein and Sulfate of Potash. Controlled release granular pellets deliver a balanced feed that will not leach. Helps buffer the soil against salt and improves soil structure for heat and drought tolerance. NOP Compliant for applicator up to day of harvest. Field crops 200 lbs. or more in the row per acre based on nutrient needs; Vegetables 250 lbs. or more per acre based on nutrient needs.

Order early!  Ton in 50# Bags = $938.50  50 lb. Bag (53#) = $27

NATURE SAFE ORGANIC FERTILIZER (10-2-8) OMRI Listed. NOP Compliant.

An all season fertilizer. Enhances root and shoot stability with controlled plant growth. Well suited for areas with nitrogen and potassium deficiencies.

Order early!  Ton in 50# Bags = $1098.90  50 lb. Bag (53#) = $31.58

NATURE SAFE ORGANIC FERTILIZER (7-12-0) OMRI Listed. NOP Compliant.

Designed to deliver a fertility package with primary and secondary nutrients. Consists of various proteins such as meat, bone, and blood meals that provide a slow release nitrogen over an 8-12 week period. Well suited for areas with nitrogen and phosphorous deficiencies.

Order early!  Ton in Totes only = $852.50

NATURE SAFE ORGANIC FERTILIZER (9-0-9) OMRI Listed. NOP Compliant.

An organic fertilizer. Ideal for phosphorus sensitive applications. Humus added to buffer the soil against extreme salt concentrations and improve soil structure for tolerance during heat and drought conditions.

Order early!  Ton in 50# Bags = $1098.90  50 lb. Bag (53#) = $31.58

NATURE SAFE FOLIAR FERTILIZER (15-1-1) OMRI Listed

The highest and cheapest source of Foliar Nitrogen! A very soluble, dry, protein based, foliar, nitrogen fertilizer. Mixes easily and at high concentration with water. May be applied through spray, drip or pivot system.

40# Bag Powder-$90  Cheap Foliar Nitrogen compared to fish!

All Prices FOB Cloverland Ag Service Millersburg, Ohio 44654  22 ton semi loads available at reduced prices.

Ohio Earth Foods  Why Re-Vita Fertilizers are Special

Our proprietary blend of all natural, organic fertilizers has been providing our loyal customers with proven results for decades. Re-Vita is made from a unique blend of composted poultry manure, humate and seaweed like no other. We use only egg laying poultry manure, high in vital calcium, typically 9% - 12%, fully composted for a minimum of 8 weeks using the turned windrow method, not intense heat. This breaks down organic matter slowly, through microbial activity, which purifies and concentrates nutrients and ensures that microbes survive and multiply. Billions of microscopic organisms will occupy every bag to Re-Vitalize your soil! Humate is added, a mined substance, rich in humic acid and carbon to enhance soil holding capacity, feed microbes and make nutrients available. Kelp is added to release growth stimulants in roots and supply micro nutrients and minerals. All of this is then pelletized together and then crushed so it will flow smoothly through your equipment.

Re-Vita PRO (5-4-5) OMRI Listed. NOP Compliant.  50# Bag = $22.00  40 + 50# bags = $16.49/bag  1 ton Tote = $609.99

The Legend is now OMRI listed! Widely used by the finest organic growers in the Mid-West. 8% to 9% Calcium and fully NOP compliant for application up to day of harvest. An all-natural blend of composted layer-hen manure, kelp, humate, boosted by feather meal, bone meal and sulfate of potash. The extra nitrogen, phosphorus and potash coupled with the trace minerals and live biological activity provided by the compost, kelp and carbon-rich microbe-feeding humate make this a superb choice for produce and field crops. The most complete organic fertilizer available
containing maintenance doses of Magnesium, Sulfur, Bron, Iron, Manganese, Copper and Zinc from natural sources to make sure all nutrients are unlocked. It just works!! Field crops 300 lbs. or more per acre in the row; Vegetables 400 lbs. or more per acre; Gardens 5 lbs. per 100 row ft. or 2 lbs. per 100 sq. ft.; Fruit and shade trees 2-3 lbs. per inch of diameter; Lawns 50 lbs. per 5,000 sq. ft.

Re –Vita Compost Plus (3-4-3) NOP Compliant. 50# Bag = $15.40 40 + 50# bags = $9.40/bag 1 ton Tote = $365.00
A 100% natural blend of composted poultry manure, kelp, and humate, Re-Vita Compost Plus 3-4-3 is a complete slow release fertilizer for a variety of uses. The addition of kelp and humate provides a complex of trace minerals and bio-stimulants easily assimilated by plants. Contains a balanced source of nitrogen, phosphorus, and potash in a slow release form will feed your plants throughout the season. The addition of kelp and humate provide a complex of trace minerals and bio-stimulants easily assimilated by plants. These substances, plus high calcium content, enhance germination, root growth and overall soil and plant health. Improves structure, water holding capacity and aeration of the soil and revitalizes the biological activity in the soil. Uniform, granular form easy to spread. Excellent for gardens, flowers, shrubs, trees, and small grain field crops such as wheat and oats. Apply 5 lbs. per 100 row ft. or 2 lbs. per 100 sq. ft. for gardens, 2-3 lbs. per inch of diameter for fruit and shade trees, 50 lbs. per 3,000 sq. ft. for lawns, and 250-300 lbs. per acre for field crops.

CHILEAN NITRATE 15-0-2 PRILLS OMRI Listed. 50# Bag = $31.99 40 plus 50# bags = $28.00/bag
For a boost of instantly plant-available Nitrate side dress 150-200# per acre on most vegetables and up to 225# on corn in early season (V4) when soil is still cool. Not to be used for more than 20% of total crop N need. Verify compliance you’re your certifier. Dissolve 5# water per gallon for 6-0-0 liquid. Non-Hazmat.

February Savings 2.5% Discount on one ton minimum, must be ordered and paid for by February 28, 2018**
Free delivery for this item if purchased in January or February 2018**

SLOW ROCK PHOSPHATE OMRI Listed. 50# Bag = $17.00 40 plus 50# bags = $11.80
A granular, natural colloidal soft phosphate that contains 20% P2O5 and 20% calcium plus minor and trace minerals. Supplies phosphorus which is needed by all plants for cell enlargement and division, photosynthesis, and respiration. Promotes early root formation and growth. If you notice purple on the leaves of your crops, you may have a phosphorus deficiency. Slow release so it will not leach away like chemically treated or synthetic phosphate. 2% phosphate immediately available. Apply 1-3 lbs. per 100 sq. ft. for gardens, 300-1,000 lbs. per acre for farm crops.

February Savings 2.5% Discount on one ton minimum, must be ordered and paid for by February 28, 2018**
Free delivery for this item if purchased in January or February 2018**

AZOMITE MINERAL AND TRACE ELEMENT POWDER OMRI Listed. 44 lb. Bags = $29.00 50 plus 44 lb. Bags $22.00/bag
When volcanic ash merged with seawater a mineral composition now called AZOMITE was created. AZOMITE represents the “A to Z” of minerals including trace elements. A fine powder, use AZOMITe to condition soil or mix with compost, manure or potting soil in the same way Jersey Greensand was used. For larger areas, we recommend 88 lbs. per acre. For established beds or house plants sprinkle ½ cup around each plant. Mix 1-2 oz. per cu. ft. of potting soil. Mixed in potting soil or suspend in water. May mix in liquid fertilizer blends for calcium and phosphorous boost.

January Savings 5% Discount on one ton minimum, must be ordered and paid for by January 31, 2018**
February Savings 2.5% Discount on one ton minimum, must be ordered and paid for by February 28, 2018**

Free delivery for this item if purchased in January or February 2018**

ASCOPHYLLUM NODOSUM KELP MEAL OMRI Listed. 50 lb. Bag = $56.00
Ascophyllum nodosum kelp meal which contains 60 trace minerals in chelated form, 14 vitamins, plant growth regulators, enzymes, and hormones. Research shows that kelp improves seed germination, root and plant growth, fruit set, and overall health of plants. Makes plants more disease and stress resistant. Increases soil fertility and microbial population. Use by wise growers to amend most micro-nutrient deficiencies slowly and safely. Broadcast using ½ lb. per 100 sq. ft. or 200 lbs. per acre. Use also as animal feed supplement.

January Savings 5% Discount on one ton minimum, must be ordered and paid for by January 31, 2018**
February Savings 2.5% Discount on one ton minimum, must be ordered and paid for by February 28, 2018**
Free delivery for this item if purchased in January or February 2018**

**RESTRICTIONS for free delivery** Some restrictions apply based on mileage and quantities. Any orders delivering in Ohio South West of U.S. RT 33 add $25.00 a ton. Discounted delivery charges may be applicable! Call for out of state delivery charges.

SULFATE OF POTASH (0-0-50) OMRI Listed. 50# Bag = $32.99 40+ 50# bags = $27.50/bag 2000# tote = $945.00
A mined all natural source of potash (50%) without chlorine. Also contains 18% sulfur. Use ½ lb. per 100 sq. ft. or 200 lbs. per acre. Please call for bulk pricing.
AGRO-LIG HUMATE  OMRI Listed  50 lb. Bag = $18.99  56+ 50# bags = $13.99/bag
A mined, naturally occurring organic Leonardite containing 65-75% high quality humic acids, 31% carbon, and a complex of other nutrients similar to chelates. Stimulates plant enzymes, root growth and beneficial soil organisms. Continued use improves the structure and organic content of the soil. For gardens apply 2 lbs. per 1000 sq. ft.; Field crops 100 lbs. per acre. Please call for bulk pricing.

SOIL AMENDMENTS
10% GRANULAR BORON  OMRI Listed  50# Bag = $35.00  20+ 50# Bags = $28.00/bag
A dry granular 10% boron to amend boron deficiencies. Can be mixed in with other granular fertilizers.

PELLITIZED DOLOMITE LIME  NOP Compliant.  50# Bag = $7.50  40+ 50# bags =$6.30/bag
A dust free pellitized dolomitic limestone. Easily spread with any type fertilizer equipment. Supplies 21% calcium and 12% magnesium. Use 3-5 lbs. per 100 sq. ft.

HI-CALCIUM LIME  NOP Compliant  50# Bag = $7.25  40+ 50# bags =$6.25/bag
A pellitized lime containing 30% calcium and 4% magnesium. Easy to spread. Use on soils low in calcium but high in magnesium. Apply 3-5 lbs. per 100 sq. ft.

SULFUR  OMRI Listed  50# Bag = $21.50  40+ 50# Bags = $18.50/bag
90% sulfur for soil application. Useful in lowering soil pH. Excellent for rhododendrons, blueberries, azaleas and other acid loving plants. Easy to spread granular form. Use according to soil test recommendations, do not over apply. Maximum use 100 lbs. per acre or ½ lb. per 100 sq. ft.

GYPSUM NOP Compliant  40# Bag = $7.19  70+ 40# bags = $6.25  200+ 40# bags= $5.75/bag
Pelletized, mined, natural calcium sulfate. Supplies 21% calcium and 16% sulfur. Loosens tight clay soils, aiding aeration and water penetration. Use when calcium and sulfur are needed and pH is high. Use 2-3 lbs. per 100 sq. ft. Please call for bulk pricing.

LIQUID FERTILIZERS & FOLIAR SPRAY
JUMPSTART II with MYCCORRIZAE 4-1-6  NOP Compliant  20# pail = $219.00  3+ 20# pails = $200/pail
Delivers macronutrients and micronutrients with humic acid to make them available with the spores of the miraculous mycorrhizal fungi to inoculate roots at time of planting. Pre-mix 1.5 lbs. in 2 or more gallons of water before adding to tank. Can be combined with other liquid fertilizers. Apply in row as liquid starter or use as transplant solution. Mix 2 pounds per acre to broadcast spray on sewn forage seeds.

Order & Pay by January 31, 2018 Price Save $20.00/pail. Order & Pay by February 28, 2018 Price Save $10.00/pail.

ORGANIC GEM LIQUID FISH FERTILIZER 3-3-0.3  OMRI Listed  1 gal=$29.50  6-17 gallons=$26.50/gal.
Fresh fish oil providing pure organic liquid fish rich in trace minerals, natural fish proteins, oils and collagen, free from heavy metals. Kept from freezing to reduce separation. Use banded into soil with/or before seed/transplant at a rate of 10 gal/acre on corn or 5 gal/acre for most vegetables. Foliar spray most crops at 5 gal/acre. Crop specific rates available. Must mix 1-part fish with a minimum of 15 parts water (50 parts water for foliar spray) and use 50 mesh screen or larger. Shake well before mixing, stir mix and do not let mix sit. Works very well mixed with 2 pints of 12% Bio-Hume per acre.

ORGANIC BLACKSTRAP MOLASSES  NOP Compliant.  2 ½ Gallon Jug= $159.50  4+ 2 ½ Gallon Jugs = $139.50
Organic Blackstrap Molasses. Add 1 oz. /5 gal. compost tea or other foliar spray or liquid fertilizer.

MAXICROP SOLUBLE SEAWEED POWDER (0-0-17)  OMRI Listed  10.7 oz. pouch = $17.99  22# carton -$249  44# carton = $399.00
A dehydrated seaweed extract with all the benefits of liquid seaweed, but at a lower cost. Easy to use powder dissolves quickly for spraying. One teaspoon makes a gallon of spray. (10.7 oz. powder makes one gallon of liquid concentrate.) Field crops general application: 2 lbs. per acre over the season.
3-7 44# cartons = $389.00  8+ 44# cartons = $379.00
Order & Pay by January 31, 2018 Price Save $20.00/44# carton. Order & Pay by February 28, 2018 Price Save $10.00/44# carton.
Order & Pay by January 31, 2018 Price Save $20.00/22# carton. Order & Pay by February 28, 2018 Price Save $10.00/22# carton.

STIMPLEX CROP BIOSTIMULANT  OMRI Listed  2 ½ Gallon Jug= $159.50  4+ 2 ½ Gallon Jugs = $139.50
A natural plant growth stimulant containing Cytokinins and a complex matrix of plant nutrients, trace elements, carbohydrates, and amino acids occurring in Ascophyllum Seaweed. Enhances plant growth and development by stimulating biological activity and cell division. Increases seed germination, cell division, and root development of plants. Also improves structure, aeration, drainage and water holding capacities of soil. Contains humic acid but has no effect on soil pH. Use on flowers, vegetables, lawns and field crops. Soil application use 1½-2½ pints per acre on flowers, vegetables, lawns and field crops. Foliar spray most crops at 5 gal/acre. Crop specific rates available. Must mix 1-part fish with a minimum of 15 parts water (50 parts water for foliar spray) and use 50 mesh screen or larger. Shake well before mixing, stir mix and do not let mix sit. Works very well mixed with 2 pints of 12% Bio-Hume per acre.

ORGANIC BLACKSTRAP MOLASSES  NOP Compliant.  2 ½ Gallon Jug= $159.50  4+ 2 ½ Gallon Jugs = $139.50
Organic Blackstrap Molasses. Add 1 oz. /5 gal. compost tea or other foliar spray or liquid fertilizer.

MICRONIZED SOLUBLE FISH POWDER with Crab (10-2-0)  NOP Compliant.  25# box = $159.00  5+ Boxes= $150.00 each
20+ Boxes= $139.00 each  Soluble fish powder, now micronized to dissolve better in water! An effective alternative to the high cost of using and transporting liquid fish. Mix 1 lbs. with 10 gallons of water to make liquid fish fertilizer that can be applied via drip, foliar spray or in a transplant solution. Use when extra nitrogen is needed and during periods of stores such as pre-bloom, early leaf development, and fruit set. Combine with soluble seaweed powder and liquid Bio-Hume for even better results. 2 lbs. per acre in 20 gallons of water.

Order & Pay by January 31, 2018 Price Save $5.00/25# carton.
Order & Pay by February 28, 2018 Price Save $5.00/25# carton.

ANIMAL FEED SUPPLEMENTS
ORGANIC BLACKSTRAP MOLASSES  NOP Compliant.  50# Jug (est. 5 gal) 55# = $42.00  10+ 50# jug = $37.00  258 Gal. Tote 3000# = $1830.00
Organic Blackstrap Molasses. Add 1 oz. per 5 gal. compost tea or other foliar spray or liquid fertilizer.
Cloverland Ag Service LLC  Page 15  330-231-4484
ASCOPHYLLUM NODOSUM KELP MEAL  OMRI Listed

As an animal feed supplement, kelp meal is the most economical way to provide a wide variety of amino acids, trace minerals and vitamins in a chelated form. It satisfies the need in animals for trace elements lacking or low in mixed feeds, pastures and other forages. It raises levels of production, improves digestion ability, and promotes healthy fur and coats. Improves the rates of conception and normal healthy births. Also helps increase the utilization of all feed ingredients and improves overall health of animals. Sea-Min is harvested from the cold fresh waters of the North Atlantic and sun-dried to preserve the natural vitamin and mineral content. Use at 1-2% of feed ration or free choice. Can be mixed 50-50 with salt or 1/3 each with salt and diatomaceous earth.

DIATOMACEOUS EARTH  NOP Compliant

Ground fossil shells from the remains of single-celled algae called diatoms. Untreated, unheated freshwater variety. Fine drying powder absorbs and dehydrates on contact. Can be used as an animal feed additive up to 2% of feed ration. Food Grade.

INSECT AND DISEASE CONTROLS -OMRI LISTED PRODUCTS

DOUBE NICKEL BIOFUNGICIDE  Bacillus amyloliquefaciens strain D747  2.5 Gallon - $230.00  4+ Gallons - $215.00
A broad-spectrum preventative bio-fungicide/bactericide for control or suppression of plant diseases above and below ground to colonize root hairs preventing establishment of disease causing fungi and bacteria. Foliar application: For control of Bacterial spot and speck, Gray and White mold, Powdery mildew, Early and Late blight, Head and leaf drop, Pink rot, Leaf spot and Rusts. Mix 0.5 to 6 quarts per acre in sufficient water to achieve thorough coverage. Begin applications at crop emergence, transplanting, or when conditions are conducive. Repeat every 3 to 10 days. Soil application: For control of soil-borne diseases infecting seeds, seedlings, roots, crown, stems, below or in contact soil such as Damping off, Seedling blights, Bottom rot or crown diseases. Mix 0.5 to 4.5 pints per acre in sufficient water to apply: to transplants in flats or pots prior to or at transplanting; or banded in furrow at planting. Follow-up applications can be made every 2-4 weeks by one or more of the following methods: Drip, Spray onto the soil surface and lower plant parts or Injection directly into the rooting zone using shanks. Can be mixed with other biofungicides.

CARB-O-NATOR

5 lb. Bag - $59.00  4+ Bags - $55.00
Contact fungicide that controls foliar diseases on a wide variety of crops. Contains same active ingredient, potassium bicarbonate, as Milstop©, well-known for efficacy against disease with a high level of safety for bees and the environment. Contains built-in spreader sticker. Acts rapidly to cause dehydrogenation and total collapse of spores and the mycelium of harmful fungi. Use for disease resistance management. Reentry interval four hours, zero-day pre-harvest interval and residue exempt. Mix at a rate of 2.5 to 5.0 lbs./Ain 100 gallons of water. Spray solution to thoroughly wet stems and foliage at the first sign of disease. Apply a minimum of 20 gallons of mixed spray per acre. Concentration and frequency of application will depend upon disease pressure. Repeat application at 10 to 14-day intervals or as needed.

NUCOP 50 WP

20 lb. Bag-$127.00
A soluble copper fungicide-bactericide for control of anthracnose, fire blight, canker, blossom end rot, scab, bacterial blights, downy and powdery mildew, leaf spot, black and brown rot, sytoria and more. Use 2-3 oz. per gallon of water or 1-3 lbs. in 20 gallons of water per acre on vegetables, 1-12 lbs. per acre on fruit. Repeat every 7-10 days or as needed.

LIFEGUARD WG BIOLOGICAL PLANT ACTIVATOR

1 lb. Bag- $170.00  5+ Bags- $160.00
Abiological disease control agent (bacillus mycoides isolate j, or bmj) that reduces the occurrence and severity of plant disease by triggering natural defense mechanisms. Preventative applications (before appearance of disease symptoms) can reduce the incidence and severity of disease. Mix in combination or alternate with other fungicides to make them more effective. A wettable granular, mix with water and apply as a foliar spray 2 oz. per acre before disease is observed. 3 – 5 Days for max. Level of protection, lasts up to 18 days. Apply to healthy, actively growing plants, not to plants stressed by drought, excessive moisture or temperatures. Can be applied up to the day of harvest.

CUEVA

2.5 Gallons - $135.00  4+ 2.5 Gallons - $119.00
A certifiable, flowable liquid copper fungicide for control of downy mildew, powdery mildew, white and gray mold, septoria, anthracnose, leaf and bacterial spot, bacterial blights, botrytis, scab, soft and bottom rot, early and late blights, dollar spot and more. Can be used on vegetables, fruits, field crops, herbs, ornamentals and turf. Use .5-2 gallons per acre. For best control, apply two weeks before diseases normally appear and repeat at 7-10 day intervals.

SERENADE BIOFUNGICIDE

A broad spectrum preventative biofungicide, Bacillus Subtilis (strain QST 713), recommended for the control or suppression of anthracnose, bacterial spot, black spot, black mold, botrytis, leaf blight, downy and powdery mildew, early and late blight, fire blight, gray mold, scab and more. Use on a wide variety of vegetables, fruit, flowers and ornamentals. For best results, apply prior to disease development or at first sign of infection. Repeat every 7 days. Can be applied up to and including the day of harvest. Mix 1-4 oz. concentrate per gallon of water. Use 15 oz. of spray solution per 100 sq. ft.

SERENADE OPTI

10 lb. Bag - $380.00  2+ 10 lb. Bags - $356.00
Commercial size wettable powder. Mix 14-20 oz./acre and begin spray soon after emergence or transplant. Repeat on 7- to 10-day interval. For improved control, use in a tank mix with copper-based bactericides at labeled rates.

M-PEDE INSECTICIDAL SOAP

A natural insecticide made from potassium salts of fatty acids. Can be applied up to the day of harvest. Kills aphids, mealybugs, spider mites, leafhoppers, whiteflies, scales, grasshoppers, earwigs, etc., on contact but spares beneficial insects. Also controls powderymildew. Use on house plants, vegetables, flowers and in greenhouses. Concentrated. Use 2% spray solution per acre.

DIATOMACEOUS EARTH INSECT KILLER

4.4 lb. Bag - $12.50
Made from the finely ground fossils of prehistoric fresh water diatoms. D.E. kills common household and garden pests like roaches, ants, fleas, beetles, slugs and other listed insects by mechanical means rather than poisons. Can also be used on pets for flea and tick control.

DIPEL DF

1 lb. Pkg. - $23.69  5 + 1 lb. Pkg. - $20.00
A biological insecticide containing a high concentration of Bacillus Thuringiensis sub. Kurstaki, strain H-11. Controls the larvae of loopers, hornworms, armyworms, leaf-rollers, cabbageworms, cutworms, webworms, gypsy moths, tent caterpillars, alfalfa caterpillars, and other lepidopterous insects. Can also be applied to stored grain to control Indian Meal Moth. May be used up to day of harvest. Use 1/2 to 4 teaspoons per gallon of water or 1/4 to 2 lbs. per acre depending on crop and infestation.
Monterey B.T. (Bacillus Thuringiensis)* A liquid microbial insecticide containing Bacillus Thuringiensis. Controls cabbage looper, hornworm, fruit tree roller, gypsy moth and other leaf eating worms. Nontoxic to humans, pets, birds, and bees. Apply when worms or caterpillars are first noticed, then at five to seven day intervals and after heavy rains. Must be eaten to be effective. Spray leaf surfaces thoroughly, top and bottom and use all of spray mixture within 24 hours. FRUITS AND VEGETABLES: Mix 1.5 fluid ounces per 3 gallons of water to cover an area of 1,000 square feet. MONTEREY GARDEN INSECT SPRAY (Spinosad)  16 oz. Bottle-$21.99  32 oz. Bottle-$36.00  Gallon-$115.00
4+ Gallons-$99.99 A bacterial product produced by fermentation of the naturally occurring product Spinosad. Can be used on ornamentals, lawns, vegetables, fruit trees, etc. to control caterpillars, Colorado Potato Beetles, leafminers, thrips, borers, beetles, armyworms, sod webworms, spider mites, loopers, gypsy moth, codling moth, fire ants, and more. A Bacillus Thuringiensis replacement. Very safe around predatory beneficial insects. Use 2 oz. per gallon of water.
MONTEREY HORT & DORM SPRAY OIL  Quart - $12.99  Gallon - $31.99
A superior type paraffinic oil that maybe used as a growing season spray or dormant oil spray to suffocate and repel eggs of red spiders, scale insects, aphids, bud moths, leaf roller, codling moth and other insects. Highly recommended for use on fruit and shade trees, shrubs, ornamentals, roses, and vegetables. Use 2-1/2 to 6 gallons per acre depending on crop and season.
COMMERCIAL GROWER SIZE - Use 1-1/2 to 6 gallons per acre depending on crop and season. 2.5 Gallon - $49.00
NEEM OIL  16 oz. Concentrate - $22.99
An organic insecticide/fungicide containing 70% Neem Oil. Kills all stages of aphids, beetles, scale, mites, whitefly and leaf rollers. Prevents and controls black spot, powdery mildew, anthracnose, blights and scab. Use on roses, flowers, fruit, vegetables, herbs and ornamentals. Use 2 tablespoons concentrate per gallon of water. Apply every 7-14 days. MONTEREY 70% NEEM OIL*
TRILOGY  2.5 Gallons - $125.00  4+ 2.5 Gallon - $110.00
A certifiable fungicide-miticide-insecticide containing 70% extract of Neem Oil. Use on vegetables, fruits, nuts, melons, ornamentals, and agronomic crops. Prevents and controls fungal diseases including black spot, powdery mildew, downy mildew, anthracnose, rust, leaf spot, botrytis, scab, blight, and alternaria. Also controls whiteflies, mealybugs, aphids, leaf-hoppers, mites and scales. Apply 1-2% solution every 7-14 days for diseases and every 7-21 days for insects.
SURROUND WP CROP PROTECTANT  25# Bag - $44.00  10+ 25# Bags - $39.99
A natural mineral protectant for fruit trees and vegetables derived from Kaolin Clay. Coats the plants with a white powder film that acts as a broad-spectrum crop protectant. Can be used in home fruit and vegetable gardens as well as commercial orchards and vegetable farms for control of apple maggot, apple rust mites, codling moths, Japanese beetles, June beetles, leafhoppers, leafrollers, pear psylla, pear rust mites, plum curculio, Colorado potato beetles, cucumber beetles, flea beetles, and more. Must be applied early before pests arrive. Use 1/2 lb. (about 3 cups) per gallon of water or 50 lbs. per acre in 100-200 gallons of water. (1/2 gallon of mixed spray will cover about one mature semi-dwarf tree.) Reapply every 7-21 days or after heavy rains if the white appearance is gone.
PYGANIC CROP PROTECTON  Quart - $49.00  Gallon - $179.99
A botanical insecticide containing pyrethrum derived from chrysanthemums. Provides rapid knockdown to over 100 insects including aphids, ants, armyworms, cabbage loopers, cucumber beetles, flies, flea beetles, thrips, leafhoppers, Mexican bean beetles, and whiteflies. Approved for use on over 200 fruits and vegetables, as well as ornamentals. Can be used up to day of harvest and is non-persistent in the environment. Pyganic can also be used as a livestock, poultry, and barn spray to control flies, mosquitoes, lice, and other flying insects.
Pyganic Garden 1.4% Contains 1.4% pyrethrins. Use 1-2 oz. per gallon of water or 1-2 pints per acre in sufficient water for thorough coverage.
Pyganic Specialty 5.0% Contains 5.0% pyrethrins. Use 1/4 - 1/2 teaspoon per gallon of water or 4.5 - 16 oz. per acre in sufficient water for thorough coverage.
ENTRUST SC 22.5% SPINOSAD  Quart - $499  4+ Quart $459.00
Effective against Colorado Potato Beetles, Spotted Wing Drosophila and Emerald Ash Borer. Now in a liquid concentrate for easier measuring and mixing. A new formulation of Spinosad that can be used alternately with BT to reduce the chances of creating resistant insect strains. Demonstrates good activity against pests like armyworms, trichs, leafminers, codling moth, cherry fruit fly, Spotted Wing Drosophila and many other pests in a wide range of organically grown crops. Two modes of action - both contact and ingestion - provide quick knockdown and some residual efficacy. 4 hr. REI. 2 yr. shelf-life. Depending on labeled application rate, will cover between 3.2 to 21 acres per quart.
MONTEREY FRUIT TREE SPRAY PLUS  16 oz. Concentrate - $17.99
An organic combination of Pyrethrin plus Neem. Highly effective on an extensive array of insects including aphids, mealybugs, scale crawlers, spider mites, trichs, whiteflies, cabbageworms, earwigs, flea beetles, grasshoppers, Japanese beetles, squash bugs, and chinch bugs. The contact killing power of Pyrethrin with the lasting insect and disease prevention of neem oil. Water based. Use up to day of harvest.
WEEDGUARD PLUS BIODEGRADABLE PAPER BED MULCH  24” X 250’ - $32.50  48” X 250’ creped - $56.50
The ultimate organic weed control! Lay over your garden or beds, cover the edges, cut x shaped holes and transplant through the paper! Cellulose fibers will stay in-tact for around 3-4 months to suppress weeds until canopy is established. Allows air and water through and can be tilled in. Can be laid with drip irrigation. 4’ width is creped for use over raised beds or with layer. Longer rolls available for special order.
AVENGER WEED KILLER HERBICIDE  Quart Concentrate-$25.00  Gallon Concentrate-$80.00  5 Gallon Concentrate-$330.00
A non-selective, non-systemic, post-emergence herbicide that kills weeds, grasses and broadleaves without adversely affecting the environment. The active ingredient, citrus oil, naturally strips away the waxy plant cuticle, causing it to desiccate. Testing results prove that Avenger is as effective, but faster acting than synthetic herbicides! An economical alternative to hand weeding, flaming, mowing and cultivation. Annual and perennial weeds that germinate from seed can easily be controlled before they establish a robust root system. Established perennial grasses, broadleaves and weeds from rhizomes or root masses can be effectively top burnt, but complete control will require multiple treatments. Cooler season effectiveness allows you to eliminate weeds before they become established. When treating newly emerged weeds, apply Avenger prior to planting crops. This will create a clean seed bed. Seeded crops can be planted within 2 hours after application. Use a 14% dilution for general weed, grass and broadleaf control.
POTTING SOIL- NOP COMPLIANT

THE SEED CATAPULT

30 qt. (1 cu. ft.) Bag-$9.50  60-240 Bags-$8.10  240+ in pallet loads of 60-$7.60

After 2 years of testing on Tomatoes, Peppers, Arugula and other vegetables started indoors we have developed the ultimate blend to get your crops off to the very best start! We took our legendary Plant Pro Potting Soil, and worked with Myco Apply, makers of the best Mycorrhizal Fungi spores, to add a precise dose of this miraculous fungi. By adding Mycorrhizal fungi inoculant to seed starting soil the symbiotic relationship of the fungi and your plant will begin at the moment of germination to maximize nutrient and water uptake and disease prevention. We also added a dose of our fish and crab powder to feed the seedling, the bacteria and the fungi. 1 bag fills 6 x 128-cell trays or 9 x 200-cell trays.

PLANT PRO POTTING SOIL

30 qt. (1 cu. ft.) Bag-$8.50  60-240 Bags-$7.10  240+ in pallet loads of 60-$6.60

Our exclusive organic potting mix, widely used by professional growers throughout the mid-west to start seeds made from sphagnum peat moss, vermiculite, sharp sand, and perlite. Enriched with Re-Vita Compost Plus with kelp, humate, rock phosphate and greensand for better fertilization. Use on all house and bedding plants. Try it against your favorite soil! 1 bag fills 6 x 128-cell trays or 9 x 200-cell trays. New bag – same trusted soil.

NOP COMPLIANT (National Organic Program) indicates the product is compliant to the best of our knowledge. Certified growers should confirm acceptability with their certification agency.

Small orders are shipped via UPS. Orders over 400 lbs. can usually be shipped more economically by freight. Please note that someone must be there to unload freight orders and finding a deliver location with a dock or forklift usually results in lower freight cost. We will gladly quote freight or delivery rate or help figure your UPS charges. Shipping weight must be added separately.
